The BRIGHTER...EASIER To Work Amalgam...

**EXCLUSIVE INFRA-RED ANNEALING PROCESS GIVES
SMOOTHER TEXTURE AND BETTER CARVING QUALITIES**

Lang's
White Beauty Alloy

CORRECT AMALGAMATION

Creamier texture and correct amalgamation is achieved because Lang's exclusive annealing process removes all surface oxides, thus enabling mercury to take faster hold. Lang's White Beauty gives you very permanent and almost impossible-to-chip fillings. You will marvel at the lustrous silvery white finish produced by so little polishing. Its lustrous finish is retained indefinitely in any mouth where gold does not discolor. Available in both regular and fine cut mesh. Ask your dealer for our 12 ounce BONUS carton. (You get 12 oz. for the price of 10 oz.)

WHITE BEAUTY ALLOY

Certified to A.D.A. specification No. 1

Lang Dental Manufacturing Co., Chicago 13, Ill.
